

Pool area planting Notes

1. Split existing bromeliads and replant 7 at end of pool to enhance this garden.
2. Plant Michelia underneath existing Lily Pily standards. Trim Lily Pily to even shape.
3. Remove one or two most central lily pily standards (as necessary) in linear garden bed in pool patio area. Transplant existing Box hedge to wrap in at the center area. Plan one triple Bangalow, underplanted with Bromeliads transplanted from other pool area garden.

2 Rear garden concept and planting

Liriope 'Evergreen Giant'

Three Kings Kawakawa

Philodendron

Port Wine Magnolia

Bangalow palm

Hibiscus

Corokia

Code	Quantity	Botanical Name	Common Name	Scheduled Size	Remarks
